

Gensource Announces Exercise of Stock Options

SASKATOON, Saskatchewan and London, U.K., February 14, 2022 – Gensource Potash Corporation (“Gensource” or the “Company”) (AIM/TSXV: GSP), a fertilizer development company focused on sustainable potash production, announces today that certain consultants of the Company have exercised previously issued stock options of the Company (“Options”) for common shares of the Company (“Common Shares”).

500,000 Options were exercised at a price of \$0.18 per Common Share and 100,000 Options were exercised at a price of \$0.17 per Common Share for aggregate proceeds of \$107,000. Accordingly, in aggregate, 600,000 new Common Shares have been issued.

Admission to Trading on AIM

An application will be made for the admission (the “Admission”) of the 600,000 new Common Shares, which will rank *pari passu* with existing Common Shares, to trading on the AIM Market of the London Stock Exchange plc (“AIM”). It is expected that the Admission will become effective, and trading will commence at 8.00 am on February 18, 2022.

Following Admission, the Company’s total issued share capital will consist of 421,088,995 Common Shares of no par value. For the purposes of the UK’s Financial Conduct Authority’s Disclosure Guidance and Transparency Rules, the total number of voting rights in the Company will be 421,088,995. This figure may be used by shareholders as the denominator for the calculations by which they determine if they are required to notify their interest in, or a change of their interest in, the Company under the UK’s Financial Conduct Authority’s Disclosure Guidance and Transparency Rules.

About Gensource

Gensource is a fertilizer development company based in Saskatoon, Saskatchewan and is on track to become the next fertilizer production company in that province. With a modular and environmentally leading approach to potash production, Gensource believes its technical and business model will be the future of the industry. Gensource operates under a business plan that has two key components: (1) vertical integration with the market to ensure that all production capacity built is directed, and pre-sold, to a specific market, eliminating market-side risk; and (2) technical innovation which will allow for a small and economic potash production facility, that demonstrates environmental leadership within the industry by using significantly less water per tonne compared to conventional solution mining operations, producing no salt tailings, therefore eliminating decommissioning risk, and requiring no surface brine ponds, thereby removing the single largest negative environmental impact of potash mining.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

Caution Regarding Forward-Looking Statements

This news release may contain forward looking information and Gensource cautions readers that forward- looking information is based on certain assumptions and risk factors that could cause actual results to differ materially from the expectations of Gensource included in this news release. This news release includes certain “forward-looking statements”, which often, but not always, can be identified by the use of words such as “believes”, “anticipates”, “expects”, “estimates”, “may”, “could”, “would”, “will”, or “plan”. These statements are based on information currently available to Gensource and Gensource provides no assurance that actual results will meet management’s expectations.

Forward looking statements include estimates and statements with respect to Gensource’s future plans, objectives or goals, to the effect that Gensource or management expects a stated condition or result to occur, including the AIM listing, the proposed financing of the Tugaske Project and the development of the Tugaske Project and other projects by Gensource. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results relating to the success of the Tugaske Project and the financing of the Tugaske Project could differ materially from those currently anticipated in such statements for many reasons such as: failure to finance the Tugaske Project or other projects on terms which are economic or at all; failure to settle a definitive joint venture agreement with a party and advance and finance the Tugaske Project; changes in general economic conditions and conditions in the financial markets; the ability to find and source off-take agreements; changes in demand and prices for potash; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with Gensource’s activities; an inability to predict and counteract the effects of COVID-19 on the business of Gensource, including but not limited to the effects of COVID-19 on the price of commodities, capital market conditions, restriction on labour and international travel and supply chains, failure to obtain required regulatory approvals; and other matters discussed in this news release and in filings made with securities regulators. This list is not exhaustive of the factors that may affect any of Gensource’s forward-looking statements. These and other factors should be considered carefully, and readers should not place undue reliance on Gensource’s forward-looking statements. Gensource does not undertake to update any forward-looking statement that may be made from time to time by Gensource or on its behalf, except in accordance with applicable securities laws.
